

Louis Vuitton

Redesign

Hi there.
My name is Gennaro i'm 23.
I am taking the first steps in the Ui
World and I fell in love from the first
time that I heard about it.
This below it's my first concept of app
redesign.

04. Quick access mode

As a user you can obviously do the
login with email and password.
But if you don't want to waste time
performing the registration procedure
don't worry your solution is right there.
With the quick access mode, you can
access the app directly via personal
social accounts with a single and
simple click.

05. Main categories switch

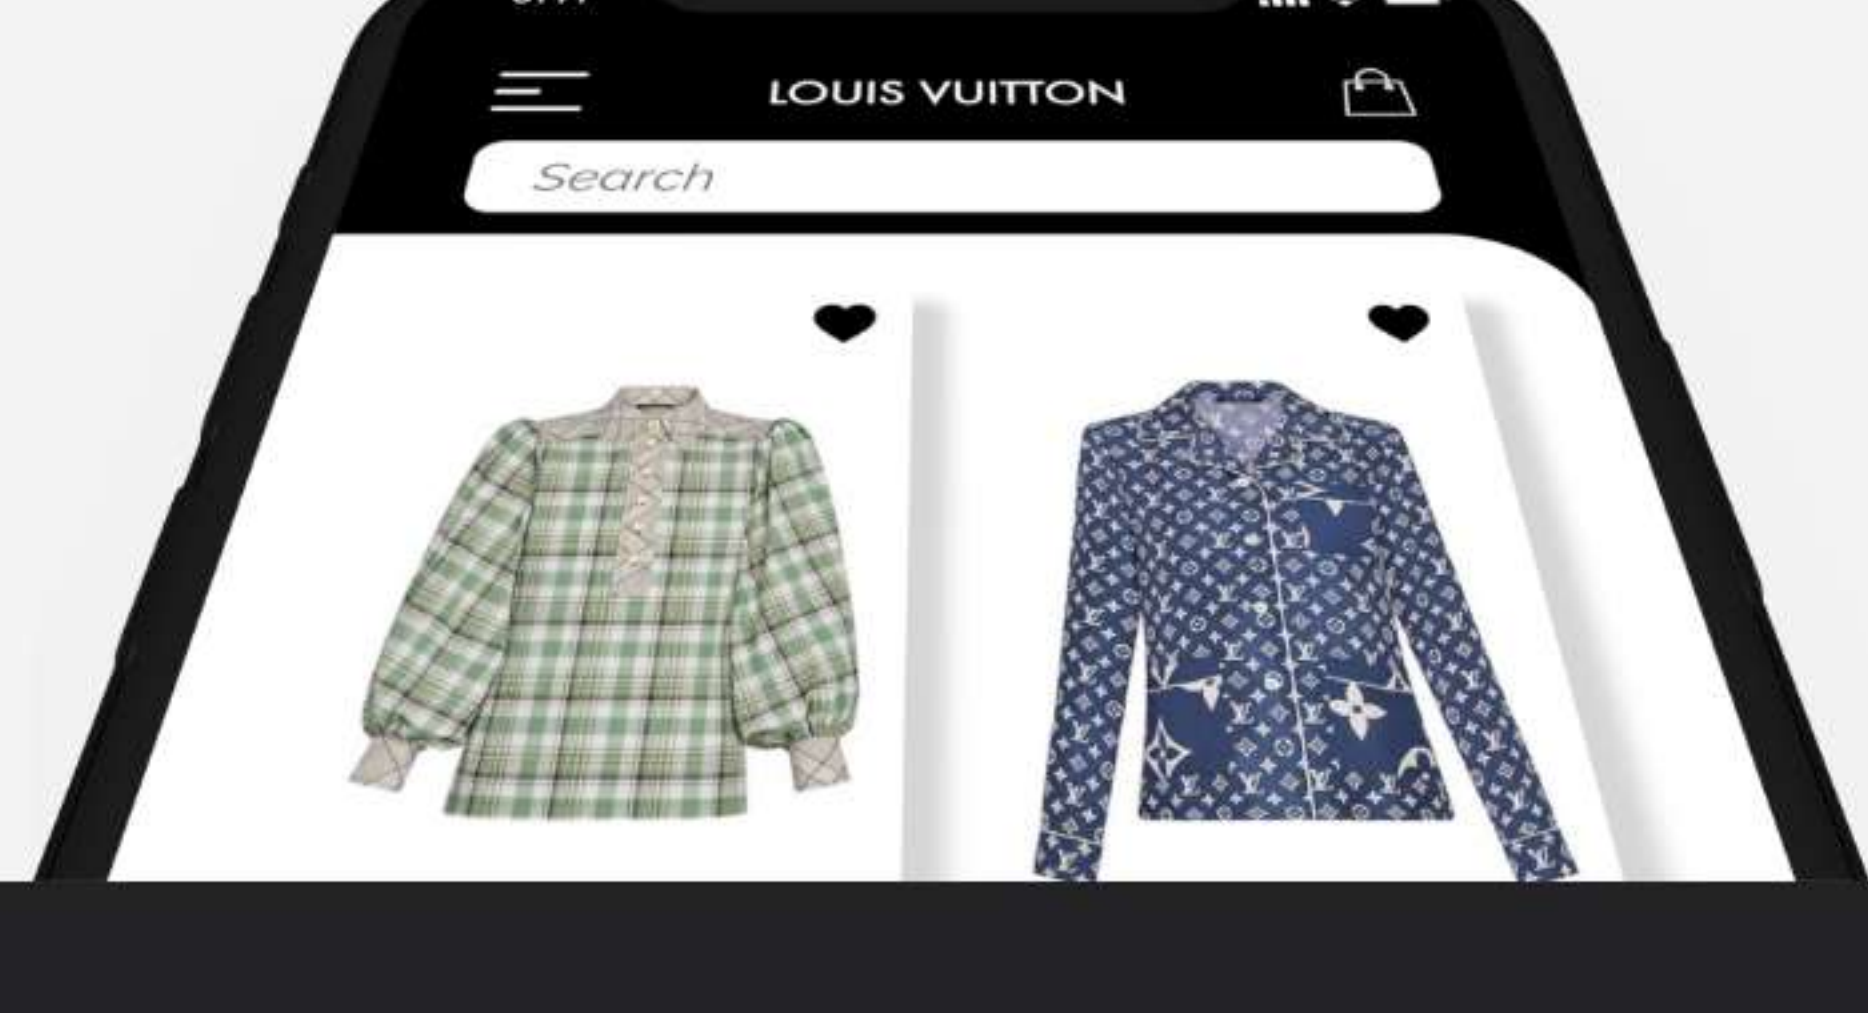

Easily find the most popular categories without wasting time and start to explore the app.

06. Save your favourite items

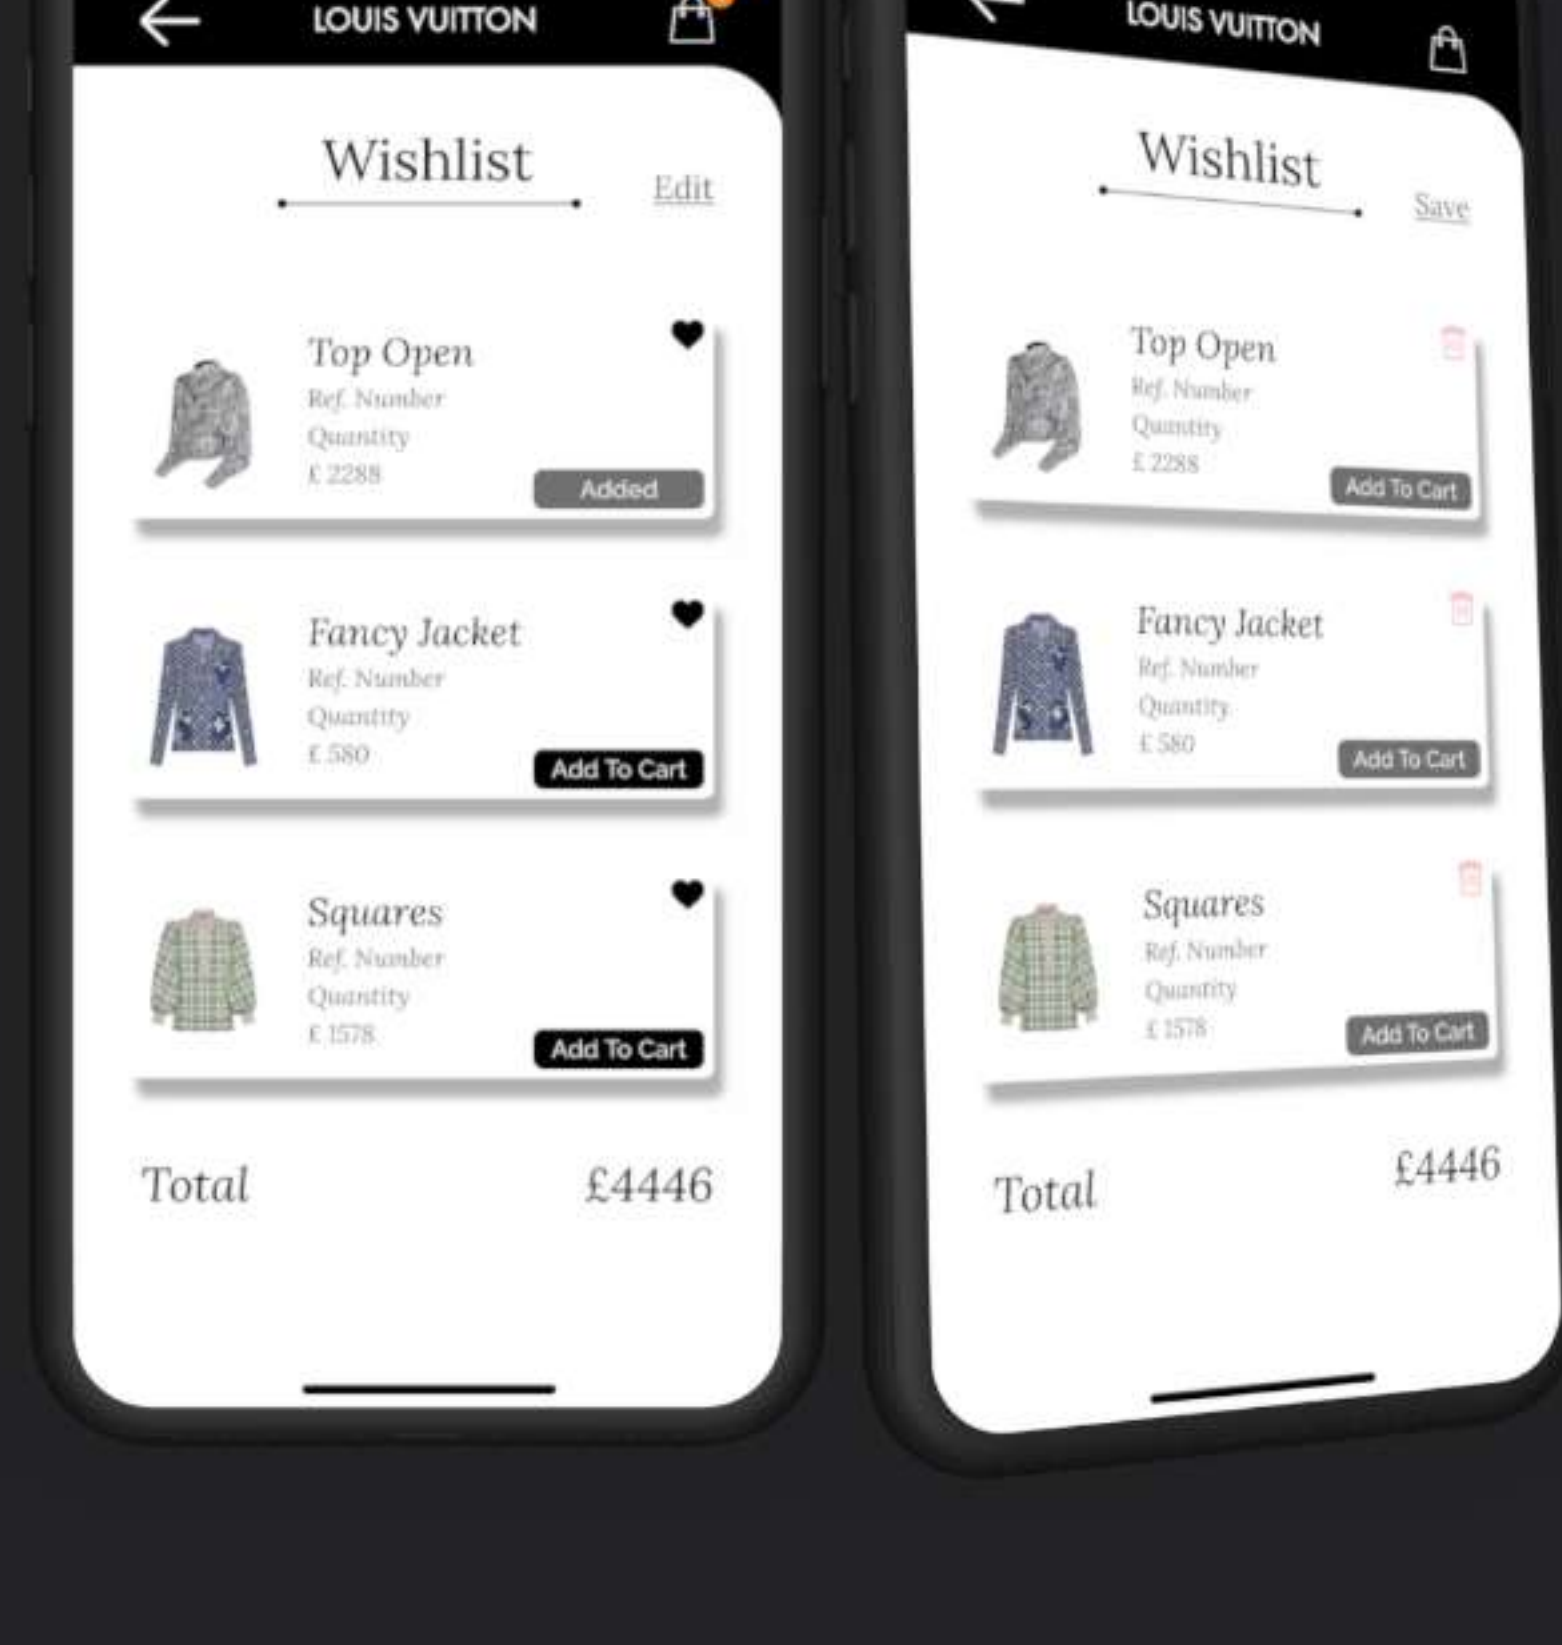

All you have to do it's just click on the heart icon.

By clicking there you'll add the item straight into the Wishlist.

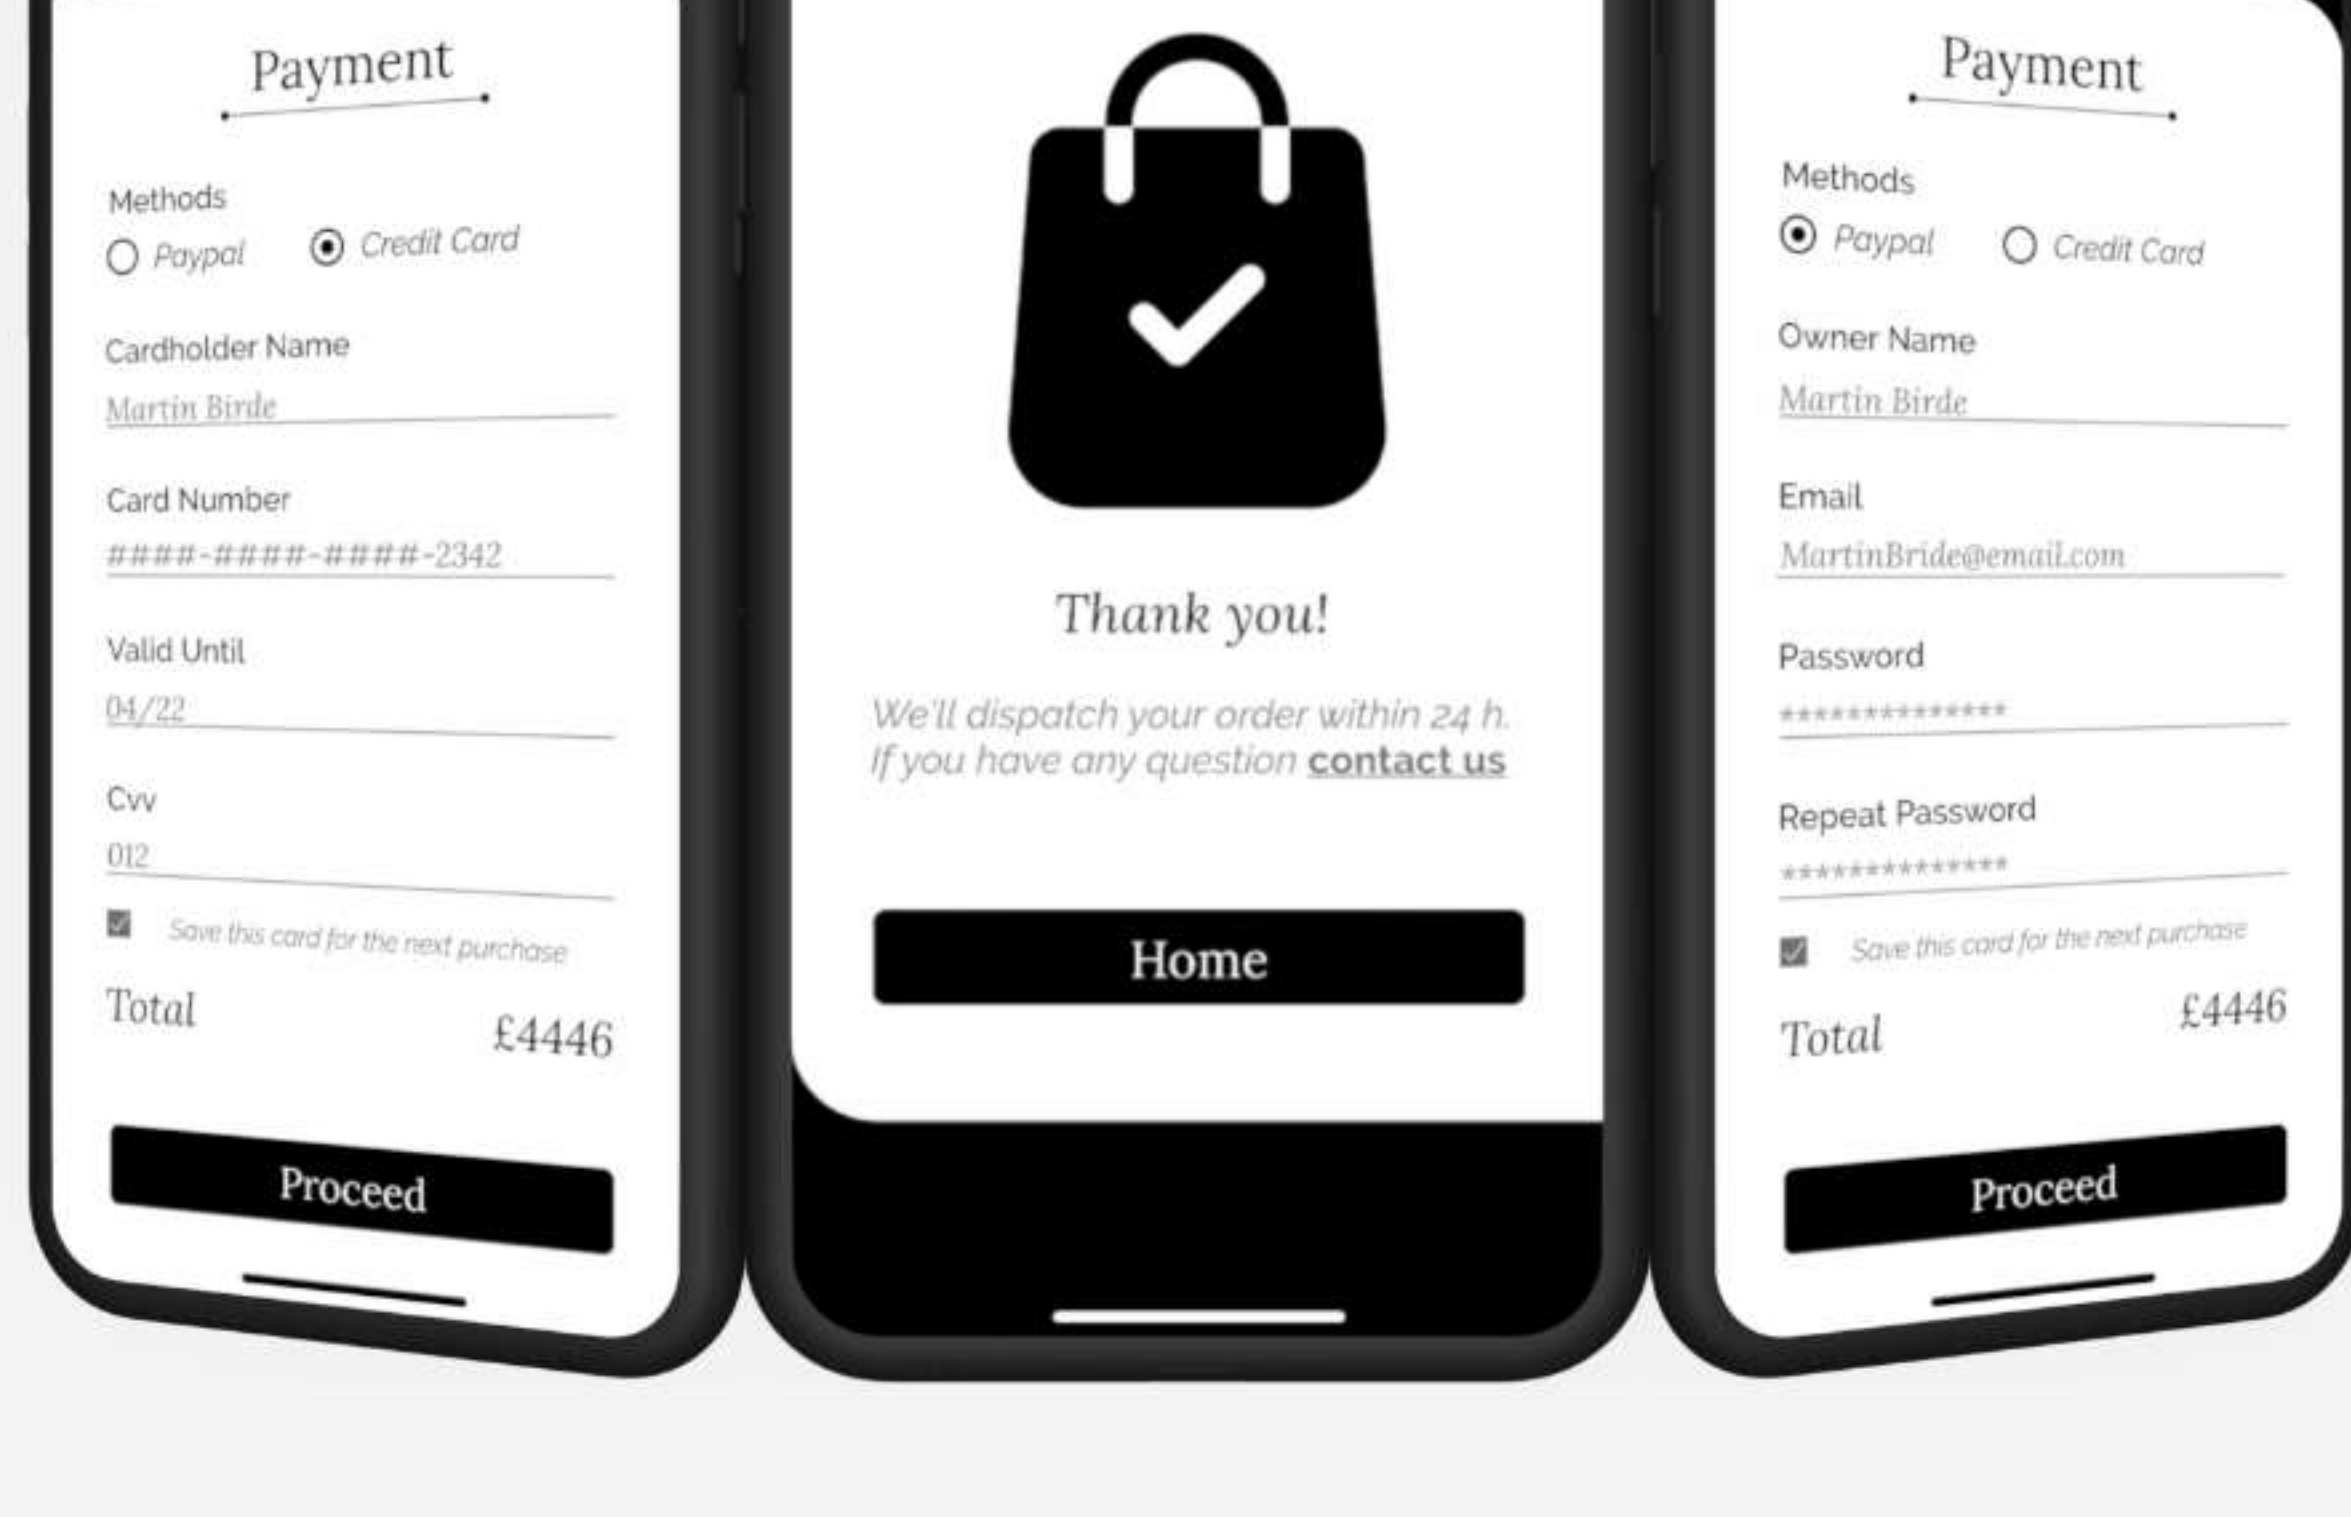

07. From Wishlist to Cart

You can edit the wishlist by removing some items and add them directly to the cart.

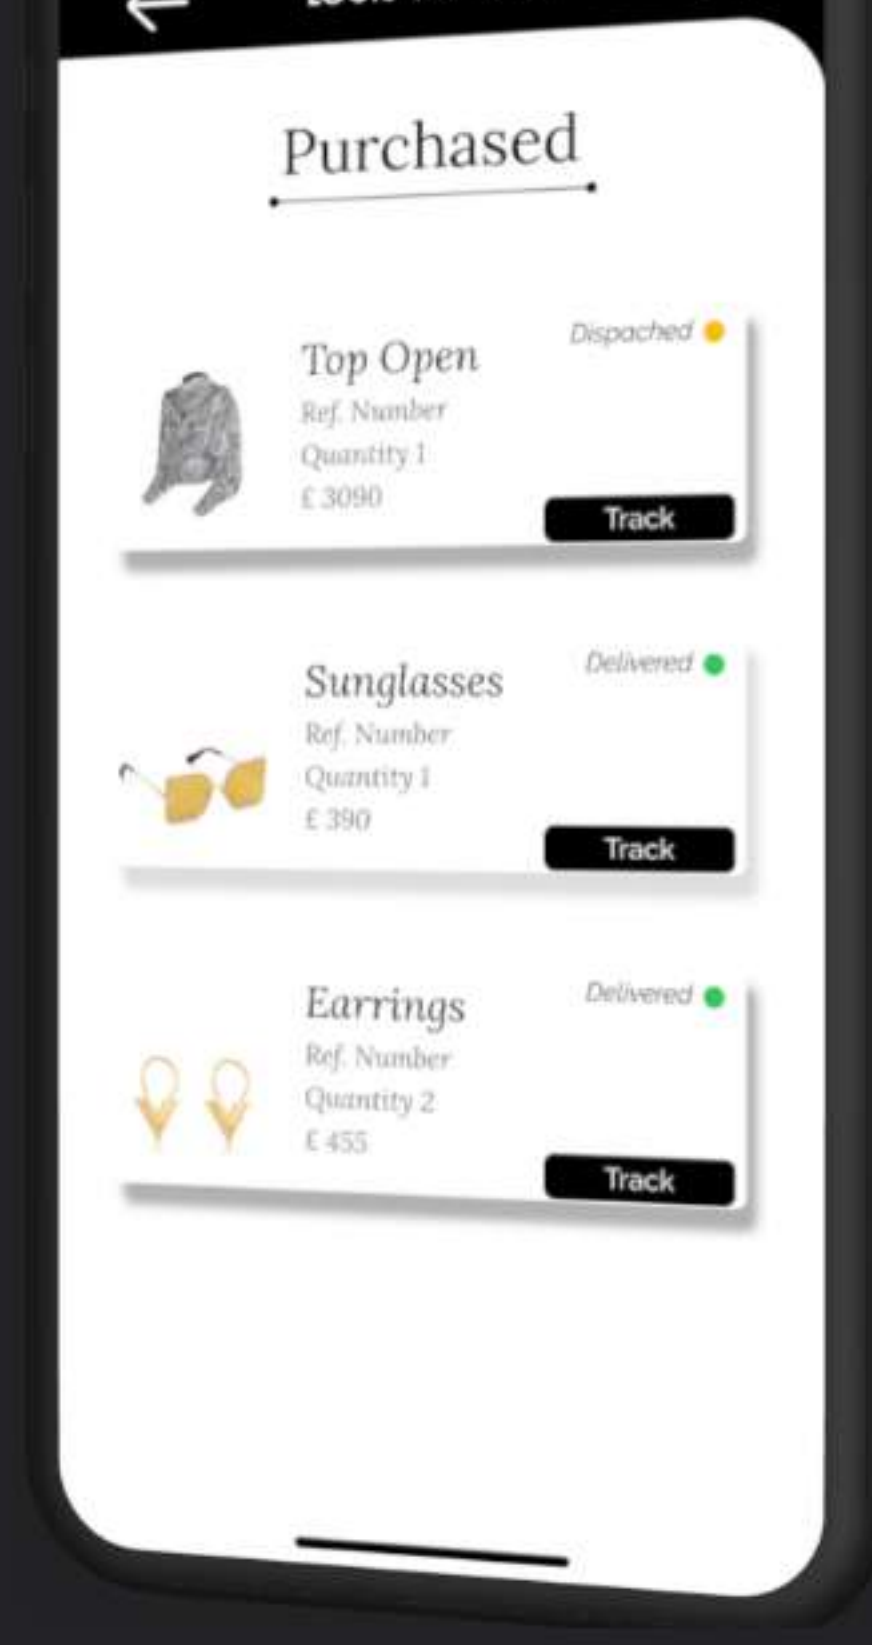

08. Payment

The interface it's really easy and simple to understand, even more safe paying by Paypal.

09. Purchased

The purchase page can be reached quickly through the menu.

Here the user can recognize the status of their purchases:

green if they are completed or yellow if they are still in progress.

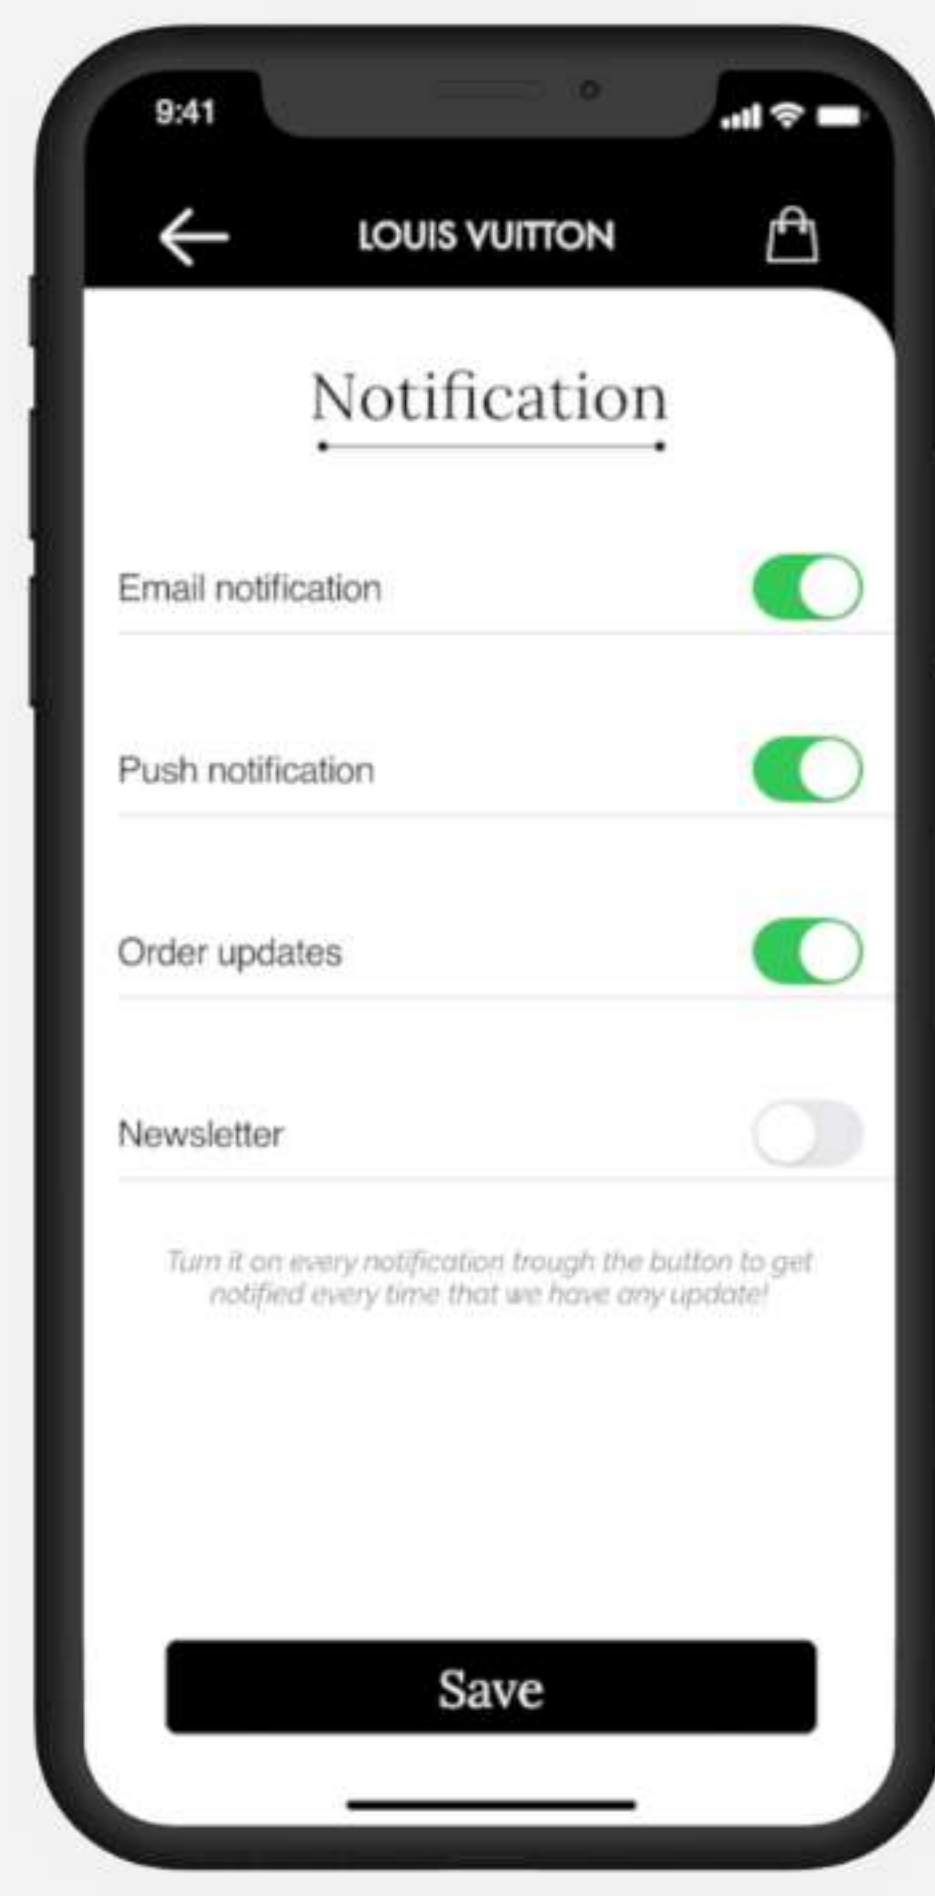

10. Tracking

The tracking page shows only four status.

Just to keep the interface clean and understandable.

11. Notification

Don't stress your life. Turn on the notifications to

be notified of any news about your delivery

status and the new collections.

THANK YOU
